

Security through practice

Scenario testing for Terrorism

Chris Phillips GCGI FCiSRM

Security & Resilience against Terror attacks

- It covers all bases
- It is an extreme set of events
- Short, Medium & Long term consequences

What do you think

- Is a terrorist attack likely to happen in a big city somewhere, THIS YEAR?
- Is an attack likely in the UK?
- Will your business be affected?

UKGOV have done it for you

5 THREAT LEVELS

CRITICAL

An attack is expected imminently

SEVERE

An attack is highly likely

SUBSTANTIAL

An attack is a strong possibility

MODERATE

An attack is possible but not likely

LOW

An attack is unlikely

It could never happen here! Could it?????

What does this mean for your business?

A major incident near you

- What will you do?
- Duty of Care?
- What is the company protocol?
- What do you want to happen?
- What do you want staff to do?
- How will you communicate?

Security and Resilience Failures - Implications for you

- People
- Buildings
- **Communications**
- Supply Chain
- Business Reputation
- Court proceedings and prosecutions?

Terrorist attack scenarios tests

- Insider threat
- Raising of the terror threat
- Left device
- Phone threat
- VBIED
- Marauding Terrorist attack

Principles for Crisis Management

- Get control
- **Communicate** effectively
- Be prepared with clear, universally understood structures, roles and responsibilities
- Build situational awareness by good information management, challenge and collective working
- Have well-rehearsed decision making plans
- Train people with specific crisis management roles
- Keep comprehensive logs
- Learn from mistakes

Two quick examples

1. At a cafe near your business

Evacuation muster point.

Marauding Terrorist attack

- Evacuation?
- RVP's
- Lockdown?
- Staff Injured?
- Communicate to Staff/Customers?
- Getting people home?
- Unable to use the building for a prolonged period?
- PTSD?

2. Telephone Bomb Threat

- Taking the call
- Search policy/procedure?
- Evacuation?
- Partial Evacuation?
- No access to your building?
- **Communication?**

Potential Terror attack- what have you done?

- Thought them through?
- Written some plans?
- Do you know what you want your staff to do?
- Have you told them?
- How will you communicate?
- Have you practiced?
- Or

- 'It will never happen to me!'

Coming your way soon

#PROTECTDUTY

We want to improve protective security and preparedness for **terrorist attacks** at public places.

SECURITY

Some Ideas

Scenario 1- Suspect package found in the building (IED)

Scenario 2 - Marauding terrorist attack nearby approaching

Scenario 3 - Terrorists gain entry to the building with a gun

Scenario 4 - Activists begin demonstrations at your site

Scenario 5 - Telephone bomb threat

Scenario 6 - Crime gangs target customers outside the building using knives

Scenario 7 - A suspicious vehicle is parked adjacent to your building

Scenario 8 - A serious incident (Stabbing) takes place on the site

Scenario 9 - A fixated person gets access to the building looking for a person in the building

You need to ACT

- Plan, Plan, Plan
- Communication, Communicate, Communicate
- Vulnerability assessment
- Counter Terrorism plan
- Train staff to know what to do
